

S

University of Utah  
DEPARTMENT OF MEDICINAL CHEMISTRY

## Fall 2006 Seminars:

DR. CHENG-WEI TOM CHANG

Utah State University

***Carbohydrate Synthesis and Its Application in Drug Development***

September 28, 2006

3:00 PM • 3515B Eccles Health Science Education

R

DR. ANNA MAPP

University of Michigan

***Small Molecule Transcriptional Regulators***

October 12, 2006

3:00 PM • 3515B Eccles Health Science Education

A

DR. BRUCE HAMMOCK

University of California at Davis

***Bugs to Blood Pressure: Are Soluble Epoxide Hydrolase Inhibitors the New Celebrex?***

October 30, 2006

4:00 PM • 501 BPRB Biopolymer Building  
in conjunction with Pharmacology & Toxicology

N

DR. LAURENCE HURLEY

University of Arizona

***New Insights into Silencing of c-MYC Gene Expression and Molecular Therapeutics***

November 2nd, 2006

3:00 PM • 3515B Eccles Health Science Education

I

DR. MUTHIAH MANOHARAN

Alnylam Pharmaceuticals

***Silence as Therapy: Discovery and Development of siRNA Drugs***

November 16th, 2006

3:00 PM • 3515B Eccles Health Science Education

M

DR. DANIEL SIMMONS

Brigham Young University

***Cyclooxygenases and Their Splice Variants as Targets in Inflammation, Neoplasia and Other Disorders.***

November 30th, 2006

3:00 PM • 3515B Eccles Health Science Education

E

We wish to acknowledge

Myriad & NPS Pharmaceuticals  
for their generous support of this series

S

Refreshments will be served
