The Department of Pharmacotherapy is seeking to fill a 12-month, tenure track faculty position at the minimum rank of Assistant Professor within the disciplines of outcomes research including health economics, biostatistics, and clinical outcomes. Applicants must possess a graduate degree in a health services research-related field such as behavioral science, pharmacoeconomics, health economics, pharmacoepidemiology, or public health. An undergraduate or professional degree in Pharmacy is preferred to facilitate teaching within the PharmD curriculum. The ideal candidate will possess demonstrated potential as an outstanding researcher, a strong interest, competence and commitment to excellence in teaching in the professional and graduate programs and a commitment to academic service.

The successful applicant is expected to complement the strong research program in the College of Pharmacy. The College of Pharmacy is situated in the foothills of the Wasatch Mountains in L.S. Skaggs Hall, which is part of the Utah Health Sciences Center, the University of Utah Hospital and Clinics, the School of Medicine, the Colleges of Health and Nursing, the Eccles Health Sciences Library and a state of the art Health Sciences Education Building. The Health Sciences Center is an environment conducive to interdisciplinary and translational research. The University of Utah College of Pharmacy is consistently ranked in the top five pharmacy schools nationally receiving National Institutes of Health funding for research. The Department of Pharmacotherapy consists of a strong foundation of clinical, tenure track faculty and research faculty, the Pharmacotherapy Outcomes Research Center, the Utah Poison Control Center and a Continuing Education Program.

Qualified applicants should send by mail and email a letter of intent, current curriculum vitae, and the names and addresses of three references to:
