

**Tenure Track Faculty Position
Assistant/Associate Professor –
Clinical Scientist**

The University of Utah College of Pharmacy is seeking qualified applicants for a 12-month Tenure Track Clinical Scientist in Translational Research at the rank of Assistant or Associate Professor. Candidates are expected to have expertise in clinical pharmacology, pharmacokinetics, drug metabolism and/or pharmacogenetics/pharmacogenomics. The clinical areas of which would complement the strengths across the Health Sciences Center include pediatrics, oncology and cardiology; however, those with other areas of expertise are encouraged to apply.

The successful applicant will join the core faculty in the Department of Pharmacotherapy (College of Pharmacy) and will be expected to initiate and maintain an extramurally funded research program that will advance the field of translational pharmacotherapy research. The University of Utah enjoys a collegial environment for collaborative research across the School of Medicine, the College of Pharmacy, the Pharmacotherapy Outcomes Research Center (www.pharmacy.utah.edu/pharmacotherapy/porc/) and the Huntsman Cancer Institute (www.huntsmancancer.org). These collaborations would lead to extensive opportunities for adjunct faculty appointments in support of interdisciplinary translational research.

Applicants must have rigorous scientific training and a strong desire for an academic research career. Candidates must have a PharmD and/or PhD in a pharmacy related discipline. A minimum two-year research fellowship in translational research or equivalent experience is desired. The position is available starting July 1, in the '08-'09 academic year.

Interested candidates should submit a letter of interest to the Chair that includes a statement of research and teaching philosophy, accomplishments and future plans, curriculum vitae, and contact information for three individuals who can provide letters of recommendation:

Search Committee Chair:
